THE CHARGE OF PALSE PRETENCES AGAINST A CLASS LEADER OF THE REPFORD STREET M. E. CHURCH—TESTIMONY FOR THE DEPENCE, ETC.

JAN 23.—Mr. Joel B. Ferguson was again arraigned at the bar of the Court of General Sessions this morning, charged with baring obtained \$1,000 from Mrs. Catharine charged with bafing obtained \$1,000 from Mrs. Catharine Carter, under false pretences, in the year 1860. The court was well find with a more sedate and respectable looking number of people than is usually found there. The plaintiff, Mrs. Carter—a stout, metherly, fresh looking old lady, of apparently sixty years of age—was attended by a lady friend. The case has excited considerable interest in the Bedford street M. E. church, Rev. J. P. Newman, paster of said church, being present during

otherwise, in bringing this case before the court.

Mr. S. L. Maccomber, in opening the case for the defence said that, according to the prisoner's statement, he did not know that Mrs. thatter had any money until she informed him of it, and that she volunteered to loan it to him, under processions of friendship towards him as an embarrassed brother in the church. His chent made no representations whatever about his property, and accounts and he did not see the need of his making such representations, as it was noterious in the neighborhood that. Mr. Ferguson was a man of property, and at the time the boan was made he was so but, like most other min, his property was ever estimated, and in consequence of it do, recomed was eduring war times, when it came to be said on the foreclosure of the mortgage its full value was not rea read.

FINANCIAL AND COMMERCIAL.

FRIDAY, Jan. 23-6 P. M. The money market was very active to-day. A large number of loans were called in, partly in consequence of apprehensions entertained by bankers with regard to the effect of the financial measure before Congress, and partly in consequence of the active fluctuations in the stock arket. At the close of the day many loans had been paid off, and the bankers were flush. But it was more difficult than ever for weak borrowers to obtain money on speculative securities. For a day or two, at all events, the more prudent bank-

cent on very large margins. Gold was quiet this morning, but became quite active in the afternoon, and looked as though it was again going to move. It sold at 1471/2, 147%, 148 and 148%, closing at 148% bid. Exchange was rather dull; we heard of sales of bankers' bills at 1621/2. There appeared to be among dealers in foreign exchange and foreign bankers an indefinite apprehension of coming events which might cause the price of bills to fluctuate. We learn nothing which could justify such expecta-

The stock market was very much excited to-day, and in some securities there was almost a panic, Eric old, which sold yesterday morning at 85%, opened this morning at 81, fell to 76, then rallied, and closed late in the afternoon at 79% bid. Eric preferred sold as low as 103, then recovered, and closed 106 bid. A great deal of feeling is expressed in the street at the conduct of the Eric ma nagement, and especially that of a leading director, who is charged with having persuaded people to buy Eric by assuring them that 7 per cent would be paid on the preferred stock, and who-American Shipmasters Association,

7. It certainly seems incredible that, after carning \$8,400,000, the company should have only had five per cent to divide; and the fact, unex plained, will doubtless operate to the disadvan tage of all Eric securities, as people will shrink from investing their means in stocks which are liable to be manipulated by speculators in the direction. It is known that a committee was appointed at the meeting yesterday to consider the subject of establishing a sinking fund to absorb the bonds; this would quench forever all hopes of a dividend on the common stock. At the morning board to-day the whole market was lower. Pacific fell 4 per cent, New York Central 1, Hudson 3, Harlem 3, Harlem preferred 4, Michigan Central 1/4, Southern old 31/4, red 4, Michigan Central 1/2. Southern old 3/2, guaranteed 3, Pittaburg 2, Illinois 2/2. Toledo 4/2, Rock Island 2/2, Galena 2/2. Fort Wayne 1, Canton 4, Camberland 11/2. Bonds were pretty firm, without much business. Governments were steady. The heaviest sellers were brokers who ave been large buyers lately, and the presumption arises that they slaughtered a good deal of stock. At the public board, at one P. M., the market was listless, and operators seemed paralyzed. The heavy decline of the past day or two is felt rather severely among small speculators who operate with inadequate margins; a good many of them may be cleaned out. At the second board, and at the four P. M. session of the public board, there was a surprising and violent rally in the market. Everything recovered from the depression of the morning, and prices approximated to those which ruled yesterday morning. The scene of excitement at the public board at five P. M. was very striking. At the close the follow-

A good deal of uncertainty and some anxiety prevail with regard to the action of Congress in authorizing issues of interest bearing Treasury notes. The second section of the bill passed yesday, as printed in this morning's HERALD, renders these notes exchangeable for legal tender notes at any time "on or after they become due." It is to be presumed that when they become due they will be paid. What necessity for any provision respecting their being "exchanged?" As the bill stood these notes were to be convertible at all times into legal tender. The change was probably made at the instance of the banks, who feared, justly enough, that the issue of \$400,000,000 of interest-bearing notes, convertible at all times into money at par and interest would lead to a general withdrawal of deposits from the banks. People would make their deposit every afternoon in these Treasury notes for the sake of the interest. A telegram from Washington this afternoon rather seems to intimate that the section, as passed, authorizes the conversion of the notes into legal tender at all times; but there is a good deal of doubt on the subject. If the notes are not convertible they will not sell above 90 and the Secretary, who cannot dispose of them below par, will not find many takers. Debt certificates, on which 6 per cent interest is paid in gold, are selling pretty freely at 95; these new notes, with interest "not over 6 per cent," and that interest payable in paper, would be quite dear enough, is compar rison, at 90. So far as we can judge, Congress is more likely to restore the perpetual convertibility this morning's papers, and the result will probably

be to superadd to our other troubles a bank crash worse than that of 1837. The business of the Sab-Treasury to-day was as

dend of five per cent, free of government tax, on the preferred stock, payable on the 17th of Feb-ruary; the transfer books will be closed to that day, from the 2d of February; the Rutgers Fire Insurance Company, a semi-annual dividend of five per cent, payable February 2; the Republic Insurance Company, an interest dividend of three and a half per cent on its capital stock, payable on demand, and a scrip dividend of six per cent, for which certificates will be issued Pebruary 10. Haute Railroad Company for December were:-135,616 Total.....\$76,685 The Chicago Tribune of Wednesday thus notices money and exchange matters there:-

Curreacy continues close under a continued heavy de-mand for money. In spite of the wrotched weather, there seems no abatement to the operations of desiers. New York exchange continues very abundant. One large house teek it only at one-eighth discount and sold at par-a one tenth promium. The usual figures, however, were par buying, and one-tenth a one-eighth premium as the seiling rate. The Cincinnati Commercial of the same day re-

marks:—
Mercantile business has been much interfered with during the past week by extraordinarily unfavorable weather—at least that which would have been done for account of a regular consumutive order and shipping trade—but nearly all articles of commerce have been subject to the exciting influences of the upward course of gold. Though not enhanced so decidedly in price, they are regarded with more itensest by investers, and held with more tenacity by those who already are in. This condition of affirm is made apparent, of course, in the discount operations of the banks. A great deal of the paper they get represents transactions of persons who are operating in the anticipation of speedy speculative returns more than on any known regular trade for the critices handled. There seems to be as yet no relaxation of the caution exercised by bankers as to the security they require in the paper which they admit to their portfolios; but, as is always the case with cheap money and prosperous trade, the temptations to a demoralization of credit increase. The great drain on the money market through the pork packing interest is materially reduced, and will soon be over, at least so far as the purchase of hogs is concerned. Currency is, consequently, casier than it has been for some weeks past, though yesterday and to-day in better request than it has been since last Tuesday. Rates of interest remain as they were—10 per cent being the leading furne for first class skirty and nirety day bills. The latter are rather preferred than the former, if covering good sums.

THE DRY GOODS TRADE. Speculative purchases of domestic cottons and weel-iens, especially the former, have been made on a very

extensive scale during the past week and prices have again advanced materially, closing with a strong upward tendency. Heavy standard sheetings are quoted up to 35c. a 37%c.; heavy shirtings, 30c.; drills and Jeans, 32%c; printing cloths, 64x64, 16%c.; Amoskeags and Merrimack prints. 23c. per yard. Stocks have been much-reduced, and, in many instances, withdrawn by holiders. The week's rise in the price of the raw material is equal to fic. a 6c. per ib.

The activity is increasing in comestic woofens, particularly in apring cassimeres, doeskins satiscts, kerseys, financis and delaines, all at firmer and advancing prices. The inquiry is also more animated for the principal styles of foreign goods, partly on speculation. Staple fabrics seem to be in most favor. Low priced goods of all kinds are run upon and solling advantageously. The current importations are moderate, and all classes of holders are not eager to sell, unless at saking prices, which are very irregular and constantly advancing, in view of the rise in foreign exchanges. extensive scale during the past week, and prices have
